Corn Brooms

Corn brooms are available in light, medium, heavy, and extra heavy-duty service. The scale is directly proportional to the weight, durability and the strength of the broom's fibre.

Light: Designed for indoor. This broom is often used as a lobby or dust pan broom to sweep smaller amounts of dirt.

Medium: Multi-purpose indoor broom that is lightweight and used as a commercial corn broom for office buildings.

Heavy: Good outdoor industrial quality broom. The construction has more weight and reinforcement, and is designed for durability.

X-heavy: Mainly an outdoor broom and is the heaviest of our corn brooms. Use this broom to remove large amounts of dirt and snow from entrance ways.
