

## Stainless Steel Scrapers

- Colour-coded stainless steel scraper is an excellent solution for removing stubborn debris from smooth surfaces
- Beveled blade loosens dried pastry dough, starches, chocolate and burnt food
- Made entirely of FDA-compliant materials, making it safe for food contact
- Ridged blade and ergonomic handle stand up to heavy and repeated use
- Accepted for use in Canadian food processing facilities

## Large Hand Scrapers

- One-piece construction eliminates seams and crevices where bacteria can hide
- Thumb indent allows the user extra power for scraping tough or sticky substances
- Narrow scraping blade provides the ability to access tight spaces, such as conveyor belts
- Colour-coded to support food safety material handling, cleaning, and sanitation programs
- Accepted for use in Canadian food processing facilities
- Rugged, non-sparking, anti-static and chemically resistant

## ColorCore Hand Brushes

- General-purpose tools for common cleaning challenges
- Total-colour construction helps minimize the risk of cross-contamination by making it easier to properly identify and store tools
- EU and FDA compliant materials
- Stiff bristles make it easier to clean tough soils like cooked-on food

## Angle-Adjustable Water-Fed Washing Brushes

- Water-fed feature allows water to flow through the brush for use with a water-fed system
- Attaches to any length Euro thread handle to fit the application
- Split fibre bristles retain plenty of water and cleaning agent for effective washing of surfaces
- Bristles are soft enough for sensitive surfaces
- Also commonly used as a dusting brush
- Neck angle is adjustable to allow all bristles to remain constantly in contact with the cleaning surface
- Colour-coded to support food safety material handling, cleaning, and sanitation programs
- Accepted for use in Canadian food processing facilities

## Food Hygiene Brushes

- Hygienically designed Euro thread prevents walk off and is easy to clean
- Bristles are strong enough to scrub away tough messes and surround the head of the brush to get a more complete clean
- Used in areas where a wider tube cleaning action is required or where the equipment has an endpoint that cannot be reached with a hand brush
- Works well as a drain brush
- Can be used dry to sweep off tough dirt, or it can be combined with water and a cleaning agent for scrubbing
- Colour-coded to support food safety material handling, cleaning, and sanitation programs
- Accepted for use in Canadian food processing facilities
- Great for cleaning small pipes and very narrow spaces between machine parts
- The bristles are attached to a helically wound stainless steel shaft which makes it strong and chemically resistant
