

Welder's Harnesses

- Blue, flame-retardant Nomex® webbing to protect against weld splatter
- The special inner Kevlar® core adds strength and high-temperature resistance
- Features one back D-ring, friction shoulder straps and mating leg and chest connections
- Contrasting webbing colours make inspection easier
- Includes unique, durable Lexan® labeling with inspection grid for easy tracking
- Universal fit (other sizes available upon request)
- Weight capacity: 400 lbs. (181.4 kg)
- Certified to CSA standard Z259.10

Miller® Revolution™ Arc-Rated Harnesses

Designed to protect workers from falls caused by electric arc-flash and arc-blast exposure when working at heights or in confined space applications near energized electrical sources.

- Features the same key elements as the Revolution Harness (see page 1221)
- Kevlar®/Nomex® Miller® DualTech™ webbing - patent-pending 10000 lb. tensile strength webbing is engineered with permanent fire retardant (FR) properties.
- Webbing offers the durability and FR properties of Kevlar® on the outer side, with softer FR Nomex® on the inside of the webbing for greater comfort
- Webbing assures arc protection and durability that eclipses any nylon webbing
- PivotLink™ design allows unmatched freedom of motion and comfort, while the unique cam buckles provide easy two-finger adjustment
- Leather insulators under all metal hardware offer additional protection for the worker
- Kevlar® web loop on the back pad allows for a "metal-less" connection when used with a Kevlar® shock-absorbing lanyard with a choke-off loop
- All Revolution™ arc-rated harnesses have bright red binding on every pad, making them easily identifiable as an arc-rated product
- Weight capacity: 400 lbs. (181.4 kg)
- Meets stringent ASTM F887-05 arc-flash standards
- Certified to CSA standard Z259.10

SAR473	RKNAR-QC/UBK	Quick-Connect	A	
SAR474	RKNAR-TB/UBK	Tongue Buckle	A	

Note: Other styles available upon request

Relief Step™ Safety Devices

- Allows the user to "stand up" in their harness, permitting the ability to move and flex leg muscles
- Provides support and enhances blood circulation until rescue
- Small and lightweight, can be attached to any brand of full-body harness
- Utilizing two devices per harness (one for each leg/foot) is recommended to assure greater user comfort
