

Zoll® AED 3™

- Zoll® Real CPR Help™ offers rescuers unparalleled technology with integrated, real-time CPR feedback on BOTH depth and rate of compressions
- Zoll® Real CPR Help™ can measure rescuer compressions and guides rescuers to the Canadian Heart and Stroke Foundation's recommended 2" depth of compressions with voice and text prompts, in real-time, to "press harder" and follows with "good compressions" when the rescuer reaches the required depth
- Both pads and batteries include a 5 year shelf life offering a low cost of ownership as well as simplified AED program management (less replacement cycles)
- The original language configuration of the unit, can be changed to deliver English or French prompts, by accessing the Supervisor set-up menu
- Integrated pediatric rescue with the use of universal CPR Uni-padz™ for both adult and pediatric rescues
- Larger screen offers dynamic rescue images in full colour for enhanced rescuer support along with voice prompts, text prompts and metronome
- 8 year device warranty (6 years + 2 years after product registration)
- Zoll's Biphasic Therapy measures the victim's impedance and delivers the appropriate level of shock as well as escalating energy shocks through the rescue
- Defaults to weekly and monthly self tests, can be configured to daily
- WiFi enabled to easily monitor and manage AED readiness, transfer case data post-event, and any protocol change program updates
- IP55 rating for protection against dust and water
- Kit includes: Zoll® AED 3™, Zoll® CPR Uni-padz™ universal electrodes for adult or pediatric rescue (5 year shelf life), AED 3™ battery pack (5 year shelf life), fast response rescue kit, manuals and orientation DVD.
