

Pallet Racking Systems

MOST COMMON PALLET RACKING COMPONENTS

- Provides the widest range of flexibility for pallet and bulk storage needs with excellent storage density
- Stocking vertically and horizontally maximizes available space with the ability to access each individual load
- Installs quickly without special tools and adjust easily to your specific needs
- Typical applications include: warehouses, distribution centres and manufacturing plants
- Only two basic components are required: beams and frames

Note: Pallet racking products are FOB the manufacturer.
