Working together for safety.

As you focus on your Safety Stand-Down, take advantage of this opportunity to stock up on PPE – and work with 3M to help reduce the challenges of wearing multiple types of PPE together. Because PPE is most effective when worn properly, 100% of the time exposed to hazards – and it works best when it works together.

* 3M Integrated Protection Program refers to 3M's portfolio of personal protective equipment (PPE) technologies and services that may be used by workers for their various needs, including comfort, fit, compatibility, communication, and performance. The depicted combinations are representative examples of which technologies may work together, but these combinations may not be appropriate for all work environments. Employers are responsible to select PPE combinations based on employee risk assessment for hazards and ensure that fit testing of combinations are conducted while wearing all appropriate PPE.
