

Ventis® MX4 Personal Multi-Gas Monitor

- Get the simple, reliable gas detection you need with the Ventis® MX4, a four-gas monitor with the portability and size of a single-gas monitor
- Designed to be extremely rugged yet lightweight and easy to wear, the Ventis® MX4 eliminates the need for extra monitors and transitions seamlessly from personal monitoring to confined space entry thanks to the Ventis® Slide-On Pump
- When your shift is over, maintenance, reporting, and data tracking are fast and easy with a DSXi™ Docking Station and iNet® Control software
- Personalize devices for your needs by selecting alarm thresholds, setting latch alarms, disabling the ability to power off while the instrument is in alarm, and more
- Backed by a 4-year warranty for monitor and standard four-gas sensors
- Monitor up to four of the following gases: LEL (Methane), LEL (Pentane), CO, H₂S, O₂, CO/H₂ Low, SO₂, NO₂
- No. of Detectable Gases: 4
- Hazard: LEL - O₂ - CO - H₂S
- **HZ486 & HZ487** includes: (1) 20-hour Rechargeable Extended Range Lithium-Ion Battery; (1) Desktop Charger, (1) Pump

HZ482

INDUSTRIAL SCIENTIFIC

Model No.	Mfg. No.	Colour	Pump	Price /Each
12-HOUR RECHARGEABLE LITHIUM-ION BATTERY				
HZ482	VTS-K1231100101	Black	Without Pump	
HZ483	VTS-K1231101101	High-Visibility Orange	Without Pump	
18-HOUR RECHARGEABLE LITHIUM-ION BATTERY				
HZ484	VTS-K1234100101	Black	Without Pump	
HZ485	VTS-K1234101101	High-Visibility Orange	Without Pump	
20-HOUR RECHARGEABLE LITHIUM-ION BATTERY				
HZ486	VTS-K1232110101	Black	With Pump	
HZ487	VTS-K1232111101	High-Visibility Orange	With Pump	

GasBadge® Pro Gas Monitor

- Interchangeable "smart" sensors monitor oxygen or any one of many toxic gases
- One-year data logging capacity (minimum)
- Standard STEL and TWA
- iNet® ready and DSXi™ Docking Station compatible
- Housed in a rugged enclosure, the monitor is immune to RF, water resistant and extremely durable
- A protective concussion-proof overmold protects the unit from extreme abuse in a variety of harsh industrial environments
- It's simple and intuitive four-button navigation allows easy access to setup, operation and calibration functions
- No. of Detectable Gases: Single
- Battery Run Time: User replaceable 3V, CR2 Lithium battery, 2,600 hour run time, typical
- Data Logging: 1 year continuous storage of data
- Temperature Range: -40 °C to 60 °C (-40 °F to 140 °F), typical
- Humidity Range: 0% to 99% RH (non-condensing), typical
- IP Rating: Third-party certified IP64

Ventis® Pro5 Personal Multi-Gas Monitor

- Wireless connectivity in the Ventis® Pro5 connects workers to live monitoring software via cellular, wi-fi, satellite, or to peers on-site through LENS® Wireless
- Respond quickly in an emergency with real-time alerts that show who needs help, why they need help, and where they're located
- See all your people in one place with flexible, automatic connectivity to iNet Now live monitoring via cellular, wi-fi, or satellite
- Share real-time gas readings, man-down, and panic alarms between peers, so the entire team knows who is in danger and why
- Improve asset management by programmatically assigning monitors to your team, so you know who had the monitor when it went into alarm or when it went missing
- Reduce human error with clear instructions (EVACUATE) when an instrument goes into alarm
- Reduce the risk and cost of having different devices in the field by using one multi-purpose gas monitor across your site for everything from personal monitoring to confined space entry
- Endure the harshest conditions thanks to an IP68 rating backed by a Guaranteed for Life™ warranty
- Includes: Rechargeable lithium-ion battery, Desktop charger
- Hazard: LEL - O₂ - CO - H₂S
