

## Narrow Mast Powered Lift Stackers

- Powered lift can raise and lower loads quickly and easily
- Narrow mast design provides improved manoeuvrability and efficiency
- Uses 12V battery, with integral battery charger and battery level gauge
- Equipped with support legs
- Operation Type: Electric

LV585

## Electric Fork Lift Stackers

- Economical DC-powered lift stacker ideal for maintenance and commercial application
- Compact design and strong steel profile construction
- Can be used as manual hand pump lift for when power is not available
- Powered with two 12V, 40A batteries
- Includes battery charger and battery level gauge
- Equipped with fixed 6" wide forks, suitable for skids only
- Maximum rated lifting capacity is based on maximum height of 63"
- Lifting Capacity: 2000 lbs.
- Operation Type: Electric

LV575

\*Equipped with adjustable forks and support legs

## Manual Hand Winch Stacker

- Ideal for use in various workplace applications, maintenance free and easy to use
- Full height push handle for easy steering and excellent visibility through mesh guard
- Feature heavy duty mast and unique winch design for easier and safer lifting
- Two rigid and two swivel wheels with brakes for easy manoeuvring
- Equipped with adjustable forks, ideal for use with pallets and skids
- Lifting Capacity: 770 lbs.

Model No.	Mfg No.	Raised Height"	Lowered Height"	Machine Weight lbs.	Price /Each

## Hefti-Lift Load Stackers

- Hefti-Lift units provide reliable, powerful lifting when moving and positioning loads
- Unit rolls smoothly on two rigid and two swivel poly-on-steel casters with foot operated brake
- Manual hydraulic foot pump yields 3/4" of platform travel per stroke
- Welded steel construction with chrome platform uprights
- Variety of attachments available upon request
- Not for use with pallets
- Operation Type: Foot Pump
- Frame Material: Steel
